

# Upgrade Kits for your Foxboro® 931C & 931D

**AIT** has field Upgrade Kits for your Foxboro 931C and 931D systems. Easily installed, these Kits give you the benefits of the most current technology for a fraction of system replacement cost.

***Some of the benefits include:***

- Easy to use LAMS Windows® based software operated by touch screen on a powerful 10.4" (26mm) color graphical display
- Real-time chromatograms with zoom and overlay of up to 6 chromatograms in different colors simultaneously
- Enhanced communications with the DCS via Modbus® protocols, or OPC® Ethernet TCP/IP based protocols
- Increased memory for storing chromatograms and data with advanced analysis capability and accessibility
- Improved software oven temperature control

**931C & 931D  
Upgrade Kit**

***Additional Power Supply  
required for selected models***
